PROFESSIONAL SUMMARY

Strategy and analytics professional with 3+ years of experience across commercial forecasting, large-scale government technology programs, and cross-functional stakeholder management. Built revenue forecast models for \$1B+ pharma portfolios at Viscadia and led multi-state digital agriculture rollouts at EY, scaling products from pilot to 20M+ users. GMAT Focus Edition: 705 (98th Percentile).

SKILLS

Analytics and Tools: SQL, Advanced Excel, VBA, Data Analysis, Revenue Forecasting, Financial Modelling, PowerPoint
Strategy and Product: Market Sizing, Competitive Analysis, Commercial Strategy, UAT, Process Improvement, Road mapping
Communication and Leadership: Cross-Functional Coordination, Stakeholder Management, Executive Communication, Team Leadership

WORK EXPERIENCE

Associate, Viscadia Pvt Ltd, Gurugram

Mar 2025 – Aug 2026

Forecast Model Build

- Built **Excel and VBA forecast models** for \$1B+ specialty drug portfolios, integrating patient journey and competition analysis
- Enabled **Fortune 500 pharma clients** to evaluate growth scenarios and align strategies through data-driven forecasting
- Developed a **reverse-forecasting functionality** to identify input adjustments required to achieve client-defined revenue targets
- Reviewed client's **legacy forecast models**, identified gaps and inconsistencies, informed the design of recommended models
- Advised client stakeholders on growth outlook directly by **validating commercial assumptions** against market data
- Led **client-facing walkthroughs** of forecast models and delivered training sessions to clients on model usage and interpretation

Consultant, Ernst & Young LLP, Gurugram

Jul 2023 - Feb 2025

Digital Crop Survey (Agri Stack)

- Led multi-state rollout, managed relationships across varied stakeholders, served as the primary point of coordination across teams
- Presented field insights directly to senior officials to support decision-making, contributing to adoption across 14 states
- Reduced recurring **cross-team coordination delays**, enabling smoother execution against rollout timelines
- Identified data integrity issues through field-level analysis and strengthened data-cleaning rules to improve accuracy at scale

State Farmers' Database (Agri Stack)

- Spearheaded rollout of the State Farmers' Database, scaling from concept to **20M+ users within 100 days** across a 7-state pilot
- Expanded state adoption by presenting field insights to **secretaries and senior officials** through conferences and state visits
- Led **UAT across 5 villages**, uncovering process and data gaps in consent and field-verification workflows in the mobile application
- Reduced processing time from 1 village/day to 1 district in 1–2 days; led a **5-sub-district POC** after implementing UAT fixes

Intern, Ernst & Young LLP, Gurugram

Jan 2023 - Jul 2023

Agri Stack

- Standardized disparate state-wise datasets and designed rule-based templates to enable unified data integration across states
- Contributed to program architecture and documentation, and designed **process flows/specs** based on data and workflow analysis

EDUCATION

Examination / Course	Institute	Year	Score
B.E. (Electronics & Computer Engineering)	Thapar Institute of Engineering & Technology, Patiala	2023	8.19 / 10.00
Class 12th (CBSE)	The British School, Chandigarh	2019	90.80%
Class 10th (CBSE)	DSB International Public School, Rishikesh	2017	9.20 / 10.00

ACHIEVEMENTS
